- Status badge

NOTIFICATION FLOW

Verification Completed

Notification Service

Send to Telecaller

Real-time Update

Notification contains: lead_id, prospect_id, verification_status, lead_status, manager_remark, verified_at, manager_name

VERIFICATION STATUS TRANSITIONS

pending_verification → verified (when manager verifies with Hot/Warm/Cold/Junk)
pending_verification → rejected (when manager rejects with reason)
pending_verification → pending_verification (when Follow-up is selected - remains pending)

Note: Once verified or rejected, status cannot change back to pending_verification
